

KEWALO HARBOR

NEWSLETTER DATE: September, 2021

COVID MANDATE

In order to stay compliant with EXECUTIVE ORDER NO. 21-07, we are required to see proof of a vaccination card or a COVID test done within the last 72 hours prior to entry in our office spaces. If you don't have proof of vaccination or a COVID test, we will be glad to assist you outside the office space. And as usual we are here for you via phone and email.

Please continue to practice social distance and wear masks when in close proximity to others.

BE SAFE
FOR YOURSELF AND OTHERS

- Practice 6 ft Distancing 
- Wash Hands Regularly 
- Wear a Mask 

HANA PA'A

Congratulations to The Five Star Sportfishing team for catching a 721-pound marlin on September 1, 2021. A couple was celebrating their 17th wedding anniversary while on the fishing charter. What a great catch ! It's likely one of the largest marlin caught in Hawaii this year.

PARKING

Please do not park your car in Kewalo Basin Park area. Be aware that new signage has been posted in the park. If you violate the parking in Kewalo Basin Park you might be fined, imprisoned, or all of the above. Please visit our website kewaloharbor.com to see a detailed map on where to park.

POLLUTANTS and the CLEAN WATER ACT

Activities from commercial and recreational small vessels can unintentionally pollute the water. Discharging pollutants such as oils and grease, detergents, paints, sewage and other pollutants is a violation of the Kewalo Harbor Rules and the Federal Clean Water Act.

If you are found discharging pollutants either directly or indirectly into the harbor, you could lose your mooring permit and privileges to use Kewalo Harbor facilities and you could be fined by state or federal agencies.

Please keep our waters clean and do your part!
